UX • UI • Research • BA • Web dev •
Marketing • Content • English (B1)

Experience

Innovation group • UX Designer

09.2019 - present

Prototyping of web apps for the company's projects (in Figma). Basically, I'm engaged in the redesign of old interfaces for the web (desktop and mobile layout), as well as designing new ones. NDA

Infomir • Product Designer

06.2019 - 08.2019

I am involved in the design and writing specifications of the Ministra TV Platform product and the admin panel for managing IPTV projects for many platforms, including iOS and Android (B2B segment). Tools - Sketch, Zeplin, Confluence

Autodoc • UX Designer

11.2017 - 04.2019

Prototyping of online stores for the company's projects (in Figma). With my help, many new features have been introduced, such as rebilling (repeat delivery), taking into account the wishes of business, developers and the SEO department. I helped to improve admin panel, and also I worked on the introduction of a design system for three projects

KB-Ecoproject • Webmaster

04.2016 - 10.2017

Creating more than 10 sites and landing without technical specification for the company. Engaged in promotion and contextual advertising. Raised the level of sales of the company by about 30%

Tools: Figma • Sketch • Confluence • Photoshop
Axure • Zeplin • Invision • Cinema 4D • Maze etc.
